

# Quality Policy

## Introduction

Brockwell Energy Limited and its associated companies are committed to delivering high-quality renewable energy solutions that meet or exceed our customers' expectations while contributing to a sustainable future. Our objective is to achieve the highest standards in project development, from initial concept through to delivery, operation, and maintenance, by adhering to the principles of continuous improvement.

## Customer Focus

We prioritise understanding and meeting our customers' and investors' needs and expectations. Our goal is to provide innovative, reliable, and sustainable energy solutions that deliver value to our clients and stakeholders.

## Leadership and Commitment

Our leadership team is committed to maintaining and improving our Quality Management System (QMS) by providing the necessary resources, fostering a culture of quality, and ensuring that quality objectives align with our strategic direction.

## Engagement of People

We recognise that our employees are our most valuable asset. We are committed to developing their skills and knowledge to ensure that they are fully engaged in delivering quality results and achieving excellence in all our processes.

## Process Approach

We apply a systematic approach to our processes, ensuring they are efficiently managed and consistent. This approach enables us to optimise resource use and enhance overall performance.

## Continuous Improvement

We are dedicated to the continuous improvement of our QMS. We review our processes and performance to identify opportunities for improvement, innovation, and enhanced customer satisfaction.

## Risk-Based Thinking

We incorporate risk management into our decision-making processes to anticipate, evaluate, and mitigate potential risks. This approach helps us to ensure the reliability and sustainability of our projects and services.

## Compliance and Ethics

We comply with all applicable legal, regulatory, and industry standards, as well as internal policies and procedures. We are committed to conducting our business with integrity, transparency, and respect for the environment and communities we serve.

## Commitment to Quality

We are committed to providing the necessary training, resources, and support to enable our employees to deliver high-quality results. We will regularly monitor, measure, and analyse our performance against our objectives, and take action to continually improve our processes, products, and services.

## Policy Review

This Quality Policy will be reviewed annually or when significant changes occur to ensure its continued relevance and effectiveness.

## Approval

The Chief Executive Officer (CEO) is responsible for ensuring the implementation and review of this policy.

Neil Young, Chief Executive Officer
