

## Contents

### Additional Information

#### Volume 2a – Figures (excluding LVIA Figures)

FIGURE	TITLE
<b>Introduction</b>	
1.1	Site Location
1.2	Proposed Development Layout
<b>Proposed Development</b>	
2.1	Typical Turbine Elevation
2.2	Typical Turbine Kiosk
2.3	Typical Turbine Foundation
2.4	Typical Turbine Hardstanding
2.5	Typical Cable Trench
2.6	Typical Existing Road Widening
2.7	Typical Track
2.8	Typical Water Crossing Methods
2.9	Indicative Construction Compound 1
2.10	Indicative Construction Compound 2
2.11	Indicative Construction Compound 3
2.12	Indicative BESS Compound
2.13	Indicative Substation Compound
2.14	Indicative SPEN Compound
<b>Design Evolution and Alternatives</b>	
3.1	Environmental Designations
3.2	Design Evolution

### 3.3 Section 36 Application

## Ecology

- 6.1 Ecological Designated Sites and Ancient Woodland within 5 km
- 6.2 Carbon and Peatland Map 2016
- 6.3 National Vegetation Classification Survey Area and Results – Index
- 6.3.1-11 National Vegetation Classification Survey Area and Results
- 6.4 Potential Groundwater Dependent Terrestrial Ecosystems (GWDTEs)  
Survey Area and Survey Results – Index
- 6.4.1-11 Potential Groundwater Dependent Terrestrial Ecosystems (GWDTEs)  
Survey Area and Survey Results
- 6.5 Protected Species Survey Area and Survey Results
- 6.6 Bat Potential Roost Feature Survey Area and Anabat Locations
- 6.7 Monthly Bat Site Activity 2020: Common pipistrelle
- 6.8 Monthly Bat Site Activity 2020: Soprano pipistrelle
- 6.9 Monthly Bat Site Activity 2020: Nyctalus spp.
- 6.10 Monthly Bat Site Activity 2021: Common pipistrelle
- 6.11 Monthly Bat Site Activity 2021: Soprano pipistrelle
- 6.12 Monthly Bat Site Activity 2021: Nyctalus spp.
- 6.13 Monthly Bat Site Activity 2025: Common pipstrelle
- 6.14 Monthly Bat Site Activity 2025: Soprano pipstrelle
- 6.15 Monthly Bat Site Activity 2025: Nathusius's PIP;
- 6.16 Monthly Bat Site Activity 2025: Nactylus Spp
- 6.17 Electrofishing Locations and Survey Results
- 6.18 Outline Biodiversity Enhancement and Management Plan Area

## Ornithology

- 7.1 Site and Study Areas
- 7.2 Ornithological Sites within 20km
- 7.3 Vantage Points and Viewsheds
- 7.4 Scarce Breeding Birds Survey Areas
- 7.5 Black Grouse Survey Areas
- 7.6 Winter Walkover
- 7.7 Black Grouse Lek Locations

7.8	Raptor Activity
7.9	Goshawk Flight Activity
7.10	Flight Activity - Hen Harrier, Hobby, Merlin, Osprey and Peregrine Falcon
7.11	Flight Activity - Curlew and Golden Plover
7.12	Flight Activity - Waders
7.13	Flight Activity - Herring gull and Whooper Swan

## **Geology, Hydrology, Hydrogeology and Peat**

8.1	Site Location and Study Area
8.2	Hydrological Features
8.3	Superficial Geology
8.4	Peatland Classification
8.5	Peat Depth Plan
8.6	Bedrock Geology
8.7	Regional Hydrogeology
8.8	Watercrossing Locations
8.9	Private Water Supply Risk Assessment
8.10	Potential Ground Water Dependent Terrestrial Ecosystems

## **Forestry**

9.1	Forestry Study Area
9.2	Baseline Forest Details
9.3	Wind Farm Felling
9.4	Designated Areas
9.5	Future Baseline

## **Cultural Heritage**

10.1	Historic Environment Records
10.2	Designated Heritage Assets
10.3	Cultural Heritage Viewpoints

### **Traffic and Transport**

- 11.1 Transport Study Area
- 11.2 Traffic Count Locations
- 11.3 Personal Injury Accident Locations
- 11.4 Abnormal Indivisible Load Route

### **Noise**

- 12.1 Predicted Noise Levels at 10 m.s – Proposed Development Only
- 12.2 Predicted Noise Levels at 10 m.s – Cumulative

### **Aviation and Radar**

- 13.1 Aviation Study Area
- 13.2 Proposed Development Location within the GPA/CTR

### **Other Issues**

- 14.1 Shadow Flicker Study Area
- 14.2 Shadow Flicker Results (Realistic Scenario)
- 14.3 Cumulative Shadow Flicker Study Area
- 14.4 Telecommunication Constraints
